

Conclusion

This Handbook was developed as a starting point for ranchers to begin a monitoring program. It may be that the Handbook is not complete and does not provide a technique to monitor an issue for a specific ranch. The following list of agencies is provided should a rancher need assistance in developing monitoring methods beyond those included in the handbook.

Local

Soil and Water Conservation Districts

New Mexico Agencies

New Mexico Department of Agriculture
New Mexico Environmental Department
New Mexico State University Cooperative Extension Service
New Mexico State University Range Improvement Task Force
New Mexico Game and Fish Department
New Mexico State Forestry Department
New Mexico State Engineer
New Mexico State Land Office

Federal Agencies

Agricultural Research Service/Jornada Experimental Range
Natural Resource Conservation Service
Forest Service
Bureau of Indian Affairs
Bureau of Land Management
Fish and Wildlife Service
US Geological Service
Environmental Protection Agency
